PROJECTS

E-Commerce Website ⎘ | HTML, CSS, JAVASCRIPT   **March 2023**
- Implemented User registration, login, role-based authorization.
- E-commerce offers people the convenience of shopping from their computers, phones and other devices.
- Prominent shopping cart and checkout buttons.
- Fully responsive design for easy shopping on any device.
- Clear, organized product categories with detailed descriptions and high-quality images.
- Live site here

PAC-MAN Doodle Game ⎘ | HTML, CSS, JAVASCRIPT   **November 2023**
- The objective is to eat all the dots (or "pellets") in the maze without being caught by the ghosts.
- It became a viral sensation, with millions of people playing it worldwide.
- This was a fun twist compared to the original game, where only one player could play at a time.
- It appealed to both original Pac-Man fans and younger players who were experiencing it for the first time.
- the game was a trip down memory lane, invoking nostalgia for arcade games and 1980s pop culture.
- Live site here

Tetris Game ⎘ | HTML, CSS, JAVASCRIPT   **July 2024**
- Players rotate and move the falling pieces to fit them into gaps in a horizontal grid.
- The primary goal is to achieve the highest score by clearing as many lines as possible.
- The rules are simple, making the game accessible to all ages and skill levels.
- It has been ported to countless platforms, from handheld devices to consoles, making it a global phenomenon.
- The simple, colorful block design is visually distinct and easily recognizable.
- Live site here
